### **CONTRIBUTION**

Vikram Gandhi was among the founding team of AIESEC in India. In a country (at that time), which had very traditional methods of education and was not open to many extra curricular activities, he helped establish the firm presence of AIESEC in India.

More than a decade later he again joined hands with AIESEC in India members by joining the Board of Advisors, and strengthened the Board's contribution to the association. Mr. Gandhi moved on to the New York Headquarters of Morgan Stanley that employs him currently. He is an outstanding individual, and is a role model not only to many AIESECers but the community as a whole.
